

THE LEADERSHIP EDGE

"One of the great things about Six Sigma, as I see it, is it is as much a leadership tool as it is a quality program. It really develops better thinking and every time it is wasted on those other than high potential individuals I find it a questionable exercise."

**-Jack Welch, former Chairman & CEO
General Electric**

Over the last 10 years, Lean Six Sigma has rapidly grown to become the most widely accepted and successful business process improvement strategy in the world today. This intensive, ½ Day seminar will provide you with a leader's view of the world of Lean Six Sigma and deployment strategies that will enable you to unleash the full potential of your entire organization, thereby propelling customer and shareholder satisfaction to new heights.

- ✓ World-class international Master Black Belt Executive instructors
- ✓ Overview of Lean Six Sigma concepts, tools & methodology
- ✓ Strategic Lean Six Sigma deployment models
- ✓ Executive Lean Six Sigma Certificate of Completion
- ✓ Convenient locations in downtown Edmonton, Toronto & Ottawa

"Nothing is so firmly believed as what we least know"

Michel de Montaigne, 1533-1592

½ Day Lean Six Sigma "A Leader's View"

TORONTO, OTTAWA & EDMONTON
CANADA

***"Lean Six Sigma:
Building tomorrow's
leaders... today!"***

"Canada's Own" for Lean Six Sigma

Lean Six Sigma: A Global Standard for Business

LEAN SIX SIGMA: A LEADER'S VIEW

Whether CEOs use it to drive revenue growth, dramatically reduce costs, increase customer satisfaction or create systematic, sustainable culture change, the potential of Six Sigma has profound implications for leadership teams.

"There are a number of things that distinguish Maple Leaf Six Sigma from off-the-shelf versions. First of all is the very profound connection that we've created between Six Sigma and our leadership culture. The very essence of Six Sigma is leadership edge."

**-Michael McCain, CEO
Maple Leaf Foods Inc.**

Six Sigma can provide your organization with the structure and discipline to launch and execute high-impact process improvement projects that drive measurable financial benefits.

"We've seen a direct impact of Six Sigma on manufacturing costs, product quality and volume."

**-Glen Barton, CEO
Caterpillar Inc.**

The real success of any Six Sigma strategy is firmly in hands of a company's leadership team.

This ½ day session will provide you with an executive view of Lean Six Sigma – a Leader's View – including an introduction to key concepts and principles, the role of the senior executive in creating, supporting and driving your deployment, as well as ways of creating a vision of Lean Six Sigma that an entire organisation can accept, internalize, and implement.

ABOUT LEAN SIX SIGMA

"The course was both interesting and informative and gave me the basis for implementing Lean Six Sigma where I work. The instructors did a great job of keeping the material easy to understand. Their extensive hands-on experience and practical real-life examples along with their assistance with each student's Lean Six Sigma project made the classroom learning environment that much more effective. Thank you, e-Zsigma, for a great learning experience!"

-Dennis Silva, Plant Manager

"What an enjoyable experience! I'm glad to have chosen e-Zsigma after comparing it to the ASQ's (American Society for Quality) on-line training option. The instructor has been wonderful - he has truly simplified and made practical what could have been difficult to understand. I guess that's why you call yourselves e-Zsigma."

-Rob Chung, Quality Manager

"When you put Six Sigma in the hands of smart people, it is incredible what they can do with it."

**-Bruce Miyashita, VP Six Sigma
Maple Leaf Foods Inc.**

"Lean Six Sigma is a comprehensive approach that improved our ability to apply the right tools at the right time to develop well rounded project facilitators and to complete initiatives in a more timely and effective manner."

**-Ted Laks, VP Six Sigma
Noranda Inc./Falconbride**
