Wyman-Gordon, a Precision Castparts Corporation Company, announces it will be International launch partner for My e-Zsigma, the first web-enabled Six Sigma/Lean Management Solution.

HOUSTON, TX – April 30, 2001 – Wyman-Gordon Company has selected “My e-Zsigma™” as its primary management solution for their unique NEI-Six Sigma improvement strategy.

Organizations that are deploying global, strategic programs like Six Sigma are increasingly challenged to manage the exponential demand on communication and safeguarding of intellectual capital. Wyman-Gordon Company will be leveraging the real-time and globally accessible My e-Zsigma solution to provide a real-time, 360-degree view for their world-class NEI-Six Sigma strategy.

With over 4000 employees staffing facilities and offices located across North America and around the world, Wyman-Gordon Company is the acknowledged leader in the production of technologically advanced forging and investment casting components, and composite airframe structures for the commercial aviation, commercial power and performance product industries.

With offices in Boston, Wichita, and Toronto, and supported by an international team of Six Sigma, Lean, and management specialists, e-Zsigma™ delivers a comprehensive suite of products, consulting, and training services that enable organizations to achieve “best in class” performance.

e-Zsigma, your total Six Sigma solutions provider is also the home of “My e-Zsigma.com: The Window to Your Six Sigma World” – the first web-enabled Six Sigma Management Solution available in both local and ASP versions.

For additional information on e-Zsigma or the products that they offer visit their Web site at <http://www.e-zsigma.com> or call (416) 730-9763 x3034.
